Safety Tips / Announcements

Airbag Thefts

Airbags are a hot commodity on the black market. A new airbag, which retails for approximately \$1,000 from a car dealer, costs between \$50-\$200 on the black market.

What Can You Do?

- Always lock your vehicle doors.
- Calibrate your car's alarm to set off when it detects vibration.
- Install an overt video surveillance system and place the camera facing your vehicle.
- If you have a garage at your house, park your car inside and keep the garage door shut.
- Use a steering wheel locking device, like "The Club," could prevent access to the airbag in some cars.

Report suspicious activity to your local law enforcement agency.
